Reclined Dimensions: 72" x 30" x 28" (183cm x 76cm x 71cm)
Weight: 65 kgs (143 lbs)

Now what's a massage without getting your feet rubbed?

The Haven incorporates the features of the Oasis chair and also includes an amazing foot massager. The air bags squeeze and massage both the sides and bottom of your feet.

The calf massage also incorporates a vibrating mode. Your calves and feet will love you.

The foot massage assembly also extends to allow longer legged users to stretch out.

The back rollers have adjustments for height and width of travel for different body sizes.

Add 2 heated lumbar pads and you'll wonder why you didn't make this investment in yourself years earlier.

The Escape

Upright Dimensions: 51" x 30" x 47" (130cm x 76cm x 119cm)
Reclined Dimensions: 73" x 30" x 30" (185cm x 76cm x 76cm)
Weight: 84 kgs (185 lbs)

The Escape takes full body massage to the next level by offering more pre-programmed massage modes as well as the ability to program your own custom massage.

To start, the back massager automatically scans your back to customize a personal massage for each user.

Then pick from one of six pre-programmed modes or manually program the type of massage and area of your back you want targeted.

You can also manually add and control the strength of the seat, calf and foot massagers. This chair provides an amazing massage to the backs of your thighs and glutes.

Add three partial massage modes including neck/shoulder, back/lumbar and seat/calves, and this chair may become your new BFF.

Weight: 80 kgs (176 lbs)

Your Arctic Massage Chair is able to :

1. Loosen your tight and strained muscles to release the stresses of the day. Feel rejuvenated as body aches and pains are soothed away and your muscles relax to increase your flexibility and energy levels. Arctic massage chairs target your entire body to relieve pain and stiffness from your neck, back, legs, arms, & feet.
2. Stretch connective tissues to provide suppleness and tone to your muscles. This will help to enhance and reach your fitness goals.
3. Increase your endorphin levels. Endorphins are the "feel good" chemicals that improve your mood and help to alleviate weariness & fatigue, as well as act as natural pain relievers.
4. Assist in removing toxins from your body to allow you to feel refreshed. Cleansing the body to remove toxins has been known to help with ADD/ADHD, allergies, arthritis, chronic pain, fatigue, inflammation, boosting your immune system, strength training, weight loss, and various illnesses.
5. Improve circulation and help increase blood flow to lower blood pressure and prevent headaches. Increased blood flow will also facilitate the absorption of nutritional elements to the muscles and tissues, allowing you to feel more invigorated and able to tackle physical tasks, even after a long day at work.
6. Relieve fatigue to feel rejuvenated and ready to take on your day!

Imagine your own personal masseuse available 24/7

All Arctic massage chairs are made with the highest dedication to quality. Crafted with 100% genuine leather for a feel as luxurious as it looks and rigorously tested to ensure every unit will perform to the highest standards, giving you the performance you desire year after year.

These chairs are that GOOD!

Our Grand Daddy of massage chairs makes massage therapists fearful for their jobs. This chair scans you and then automatically inclines your legs and reclines your back to the optimal relaxing position.

Then pick from one of 12 pre-programmed sessions with customizable length, speed and intensity or completely program a custom massage for you. Extra air bags with complete intensity control squeeze hips, sides and arms. A custom neck pillow provides an extra massage to the neck area. The back massager adds two more massage modes including Shiatsu (acupressure) and triple action. Multiple stretch modes stretch out your back, hips and legs.

Heated lumbar and feet warms and loosens tired muscles. This chair also comes with a music synchronization mode that will massage in conjunction to a MP3 hook up.
